[FAQs](#)

Trust: the foundation on which Practo is built

Your data has only one owner. YOU!

- ✓ Practo does not have access to your data
- ✓ Practo does not sell or share your data with any third party
- ✓ Practo follows stringent policies so that data isn't compromised at any step

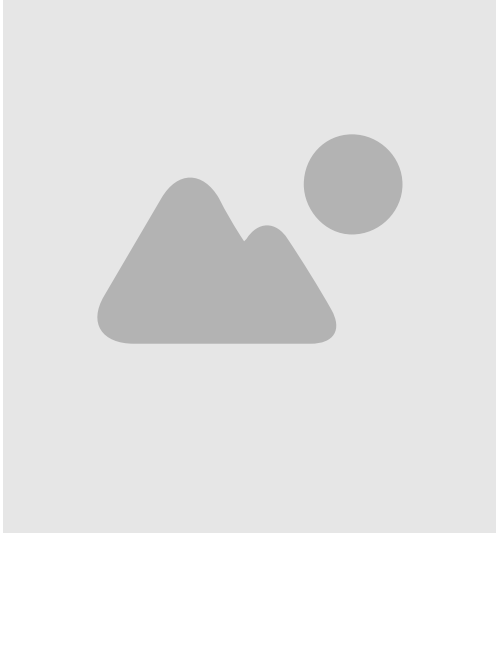

256-bit encryption

ISO 27001 certified

HIPAA complaint data centers

We are ISO 27001 certified

BSI - a global authority in information security standards - has **certified** that Practo ensures confidentiality, availability, and integrity of its information assets

- ✓ Secure organizational practices ensured by awareness and stringent access controls
- ✓ Secure processes through strong administrative controls and monitoring
- ✓ Secure systems with strong technical measures, and frequent vulnerability assessments and penetration testing

Data security for patients

- Your data is for your eyes only
- No one at Practo can view your data
- We do not send you messages without your permission
- We send promotional messages with an option to opt out any time
- We do not share data with any third party

Data security for doctors

- We do not have access to read or view your practice data
- We do not share data with any third party
- Doctors are in full control to decide what communication has to be sent to their patients
- We follow stringent data policies to ensure users' privacy and security

Secure platform for healthcare providers

Each Practo product is designed to protect data security and privacy

We never send promotions to your walk-in patients

As per our **privacy policy**, we never reach out to your walk-in patients or send any promotional communication to them. The only way for any patient to receive any promotion from us is if they visit **Practo.com**, or download our app independently and give us permission to contact them. Practo does not have any access to your patient database stored in Ray.

Your data has multiple encrypted backups

All data is backed up and versioned multiple times at secure locations across the world. We also employ a smart feature called point-in-time recovery to retrieve the data from a specific time period

We don't sell your data

We are fully aware of the sensitivity of your healthcare information and take data privacy extremely seriously. We go to great lengths to protect it and will never ever sell it to anyone.

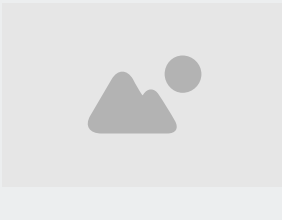

We never mix doctors data and patients data

Our platform uses industry-grade firewalls and follows a stringent privacy policy designed to keep providers' data separate from patients' data

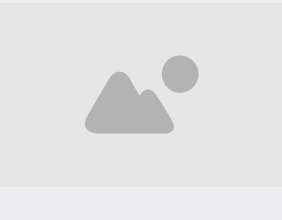

Secure place for your health data

Keeping your data safe is the core of every decision we make at Practo

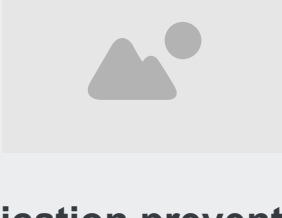

Your data is for your eyes only

Anything that you share on Practo is completely private. No one else can access it. We give an unprecedented level of control so that only you can decide who sees what.

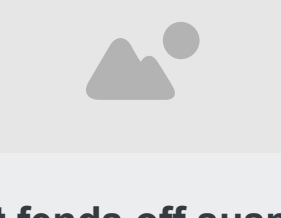

Everything is protected with 256-bit encryption

Practo uses world-class standards to shield your data from unauthorized intrusion. It is always protected with multiple layers of encryption (256-bit encryption over the network).

Two-factor authentication prevents unauthorized access

Extra measures are good. Therefore, we let you enable two-factor authentication so that your data is absolutely secure, and no one else can access it except you.

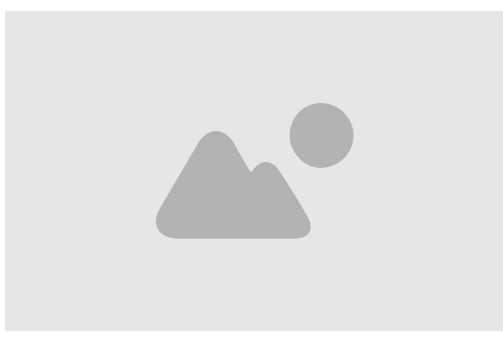

Remote logout fends off suspicious logins

Whenever a new device logs into your account, Practo notifies you immediately, so that you can review the activity and log out if needed.

FAQs

- What is Practos view on data security and privacy?
- What data does Practo have?
- I am a doctor using your Ray software, what kind of access do you have to my data stored in Ray?
- If you dont have any access to data in Ray ,how can you send those appointment confirmation or feedback collection SMSes to my walk-in
- How do you distinguish between patients who come to me directly and patients who come to me booking via Practos website or app?For both of them, what data can you access?
- I had a walk-in patient who received marketing communication from Practo. How is this possible?
- My patients complain of receiving marketing communication from others healthcare companies as soon as they registered at my clinic. Do you sell data?
- Have you ever faced a data breach?
- Is my data really safe with Practo?
- What specific measures do you use to ensure security of data stored with you?
- My offline patients receive SMDS from Practo software which mentions Practo and that leads them to you website/app.
- If you dont have any access to data in Ray ,how can you send those appointment confirmation or feedback collection SMSes to my walk-in
- How do you distinguish between patients who come to me directly and patients who come to me booking via Practos website or app?For both of them, what data can you access?
- I had a walk-in patient who received marketing communication from Practo. How is this possible?
- What if i find security vulnerability in any of your applications?
- Is Practo compliant with the data security and privacy laws in India?

What we do

We are on a mission to make quality healthcare affordable and accessible for a billion+ Indians. We empower people with the information and care that they can trust to make better healthcare decisions every day.

The best part - we are making it happen with you!

Our key provider partners

Know more about our association with leading hospitals and clinics

To make healthcare simpler and more accessible for patients through digital solutions, Practo and Fortis embarked on a journey together in August 2017. After joining hands with the hospitals in South India, our association grew stronger to cover Fortis hospitals pan India. Our shared vision to simplify healthcare with digital solutions led to a seamless onboarding and integration of 25 hospitals across India within just 15 days!

Patients are looking for doctors like you

Millions of patients are looking for the right doctor on Practo. Start your digital journey with Practo Profile

Let's take the first step and create your account:

Name

Type full name

Phone

+91(IN) Type number

Note: OTP will be sent to this number for verification.

Continue

If you already have an account. Please login here.

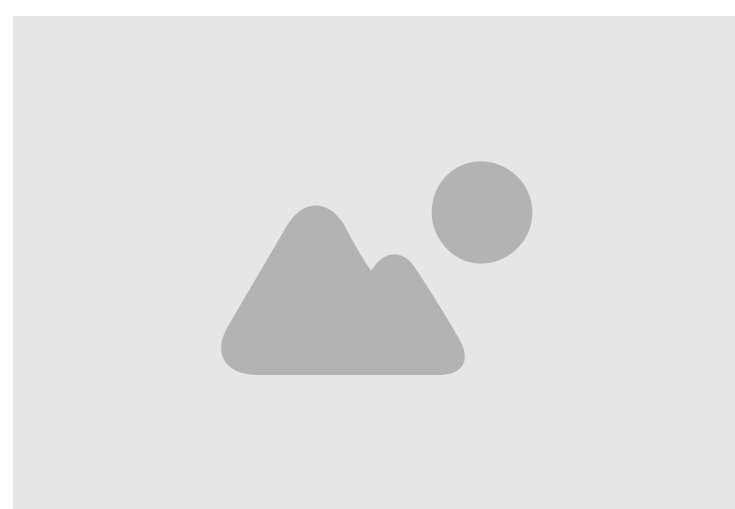

Edit your profile from anywhere, effortlessly

- Easily add or modify your details
- Add information that matters to your patients - timings, fees, new services, and much more
- Keep all your information up to date, with ease

Keep track of patient feedback

- Know what your patients have to say about you
- Interact with them through your Practo profile
- Build your credibility by replying to their feedback
- Let everyone read the great feedback patients leave for you

Improve your profile with tips from us

Does your profile have all the information? We'll remind you about all the minute details that can make a huge difference impact on your online presence.

Create your free Practo profile in 3 simple steps

Register or find yourself on Practo.com

Enter your name, email id, mobile number and clinic or establishment name.

Add your profile information

Fill details about you and your practice including your medical registration, fees, timings and more.

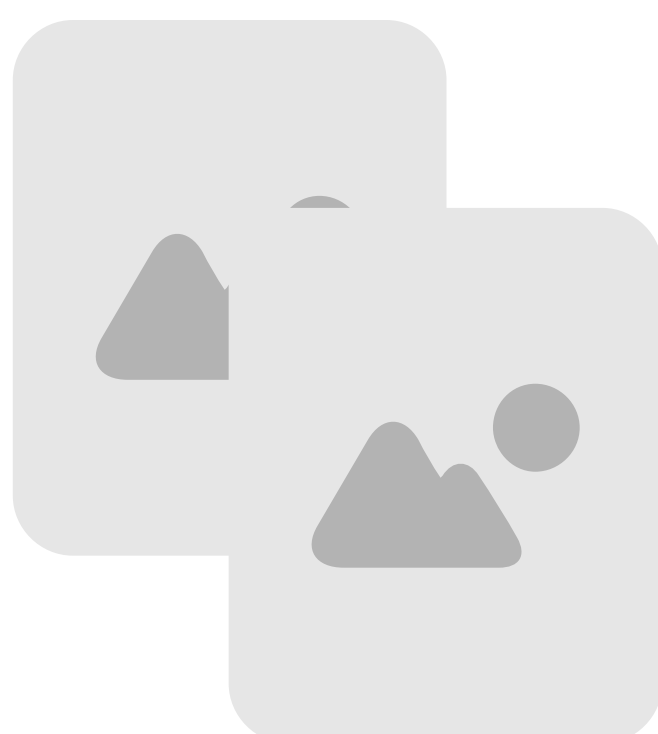

Help us verify your details

Complete our a simple verification process online, and go live!

Create your profile

Note: Verifying your medical registration and qualification ensures that you get listed as a genuine medical practitioner.

Download the Practo app

A powerful app that lets you manage and grow your practice.

- ✓ Manage your profile with advanced profile editor
- ✓ Respond to patient stories for your practice
- ✓ Provide online consultation to patients
- ✓ Manage your clinic with a Ray by Practo subscription
- ✓ See patient records from anywhere
- ✓ Track your clinic's performance on the go
- ✓ Manage and track your Prime subscription

OverviewPlans

Start your free trail

Ayushman Bharat Digital Mission(ABDM)

With Practo Ray, you can now be part of ABDM's vision of developing the digital health infrastructure of the country.

Start your free trail

Here's an overview of how Practo Ray can help your service be more discoverable in the ABDM ecosystem

Get free access to Unified Health Interface

Upload Patients Health Records (PHR) directly

Unified Health Interface (UHI)

UHI is one of the core foundations of ABDM. Similar in concept to the Unified Payment Interface (UPI) where you can make payment to a PhonePe account using a UPI ID from either GooglePay or Paytm, UHI will enable you to consult patients looking to consult doctors on any UHI-compliant and participating website or application as well such as Paytm, Arogya Setu and so on.

Start your free trail

Patient Health Record

Patient Health Record or PHR is similar to a Digital Locker where a patient can safely and securely store their medical records. While it can only be accessed by the individual, Practo Ray enables you to upload your patient's health record, prescriptions, diagnosis and treatment plans directly onto ABDM's PHR—another critical component of ABDM

Start your free trail

Ray by Practo is now ABDM compliant

Digitising Indian healthcare since 2008

Reduce manual intervention and manage your calendar and appointments online

Increase patient demand by 1.8x *

Send personalised appointment reminder SMS' to patients to reduce no-show

Get premium access to Practo platform, collect feedback and follow-up consultations online

Generate digital health records, prescriptions and bills with ease and higher security

ABDM and UHI compliant software

*Based on internal Practo estimates

Start your free trail

Your data has only one owner. You.

As a digital healthtech platform that manages sensitive healthcare data, we consider the healthcare data entrusted to us as our most important asset and we strive to do everything in our power to ensure that it remains safe. We do so by using 'gold standard' security protocols and proprietary technologies that safeguard this data vault. With Practo Ray, you can be assured that:

Your data and patient information will not be accessed by anyone but you

Your data or that of your patient is never shared with any third-party agency

We never send marketing promotions to your patients

256-bit end-to-end encryption

HIPAA compliant data centres

Automated data backups

2-factor authentication

IP Whitelisting

Here's what our healthcare providers have to say about Practo Ray:

FAQs

When and why was ABDM launched?

What is the ABHA number?

Why do you need to create an ABHA ID?

Is creating ABHA ID mandatory?

How do I create my ABHA ID?

What is UHI?

As a provider, how do I get access to UHI?

Will my data remain safe if I store it digitally?

In case I need more information, whom do I speak to?
